

CREation

COMMUNITY SUPPORT FUND

Impact Overview

In April 2020, CRE launched a Community Support Fund. The goal of this program was to mobilize \$300,000 to support community-level programs and supports related to COVID-19.

- Across the 3 application rounds, CRE received 173 proposals representing a need of over \$900,000 in funding.
- 65% of applications were from unincorporated groups (including grassroots collectives, Youth Councils, small organizations, and community groups). Because these groups are not registered/incorporated, they face large barriers to access funding, particularly from mainstream funding streams.

The Community Support Fund provided \$307,500 in funding to 62 groups in 11 Provinces and Territories

- Grantees predominantly served either First Nations youth specifically, or First Nations, Métis and Inuit youth.
- The majority of funded groups were in Ontario, Alberta and British Columbia.
- 39% of grantees are supporting youth in rural locations. 35% are working in urban centers, and 26% are serving remote communities.
- The 62 funded groups will collectively reach 19,000 youth before September 2020.
- 50% of grantees were entirely youth-led projects.

Who are grantees primarily reaching?

Community Support Fund

GRANTEES

Alberta

EDMONTON 2S SOCIETY

The Edmonton 2-Spirit Society will use funds to support ongoing operations for the organization, as well as to run a series of online craft programming and socials for two spirit youth and community.
